

Volunteer/Intern with Horses in Africa

Bring your study or experience in Equine Facilitated Wellness to Healing-With-Horses-Zimbabwe.

Come experience Africa in a deeply meaningful and economical way. Contribute what you know best and learn something new in Horsemanship and Therapeutic Internships.

Work with underprivileged or special-needs children in therapeutic programs and riding lessons, and adults in healing, personal growth or leadership-coaching. In return, horsemanship practice, Centered Riding lessons, equestrian coaching, trail rides, stable management, first aid for horses, and more are offered.
